# Foggy Shores tests Team V's mettle

TECH. SGT. LLOYD CONLEY  
30<sup>th</sup> Space Wing Public Affairs

■ Team Vandenberg honed their emergency response skills and tested their mettle this week in the first Foggy Shores exercise of the year.

The primary purpose of the Foggy Shores exercise was two-fold, said Capt. Reggie Williams, chief of 30<sup>th</sup> Space Wing exercises, evaluations and inspections. It not only helped the wing prepare for emergencies, but also allowed base members to prepare for future inspections.

Williams said each unit practices and trains in their particular areas of expertise, however in a

wing all units work together to accomplish the mission. "It helps keep readiness on the minds of everyone," he said.

"The exercise evaluated Team Vandenberg's preparations and response to disasters," said Edward Rambus, 30<sup>th</sup> Space Wing exercises, evaluations and inspections. Response procedures to contingencies or unexpected events were a major part of the evaluation.

Rambus said the scenarios for this exercise included, but were not limited to, a hazardous material spill, a suspicious package, deployment processing operations, severe-weather conditions,

changing threatcons and infocons.

The wing's participation in Foggy Shores, satisfies quarterly and annual exercise requirements, and helps test Team Vandenberg's ability to command and control operations when reacting or responding to emergencies of varying degrees and intensity.

Williams said the scenarios also tested the wing's communication channels.

"Exercises like Foggy Shores help Team Vandenberg maintain a high and constant level of readiness and prepare the base to handle emergencies at any given time," concluded Williams.

Team V in action

# President Bush thanks armed forces, civilians

To the armed forces of the United States and to the men and women who support them.

Your service in the cause of freedom is both noble and extraordinary. Because of you, America is strong and the flame of freedom burns brighter than at any time in history.

Your country can never repay you for the sacrifices and hardships you endure, but we are grateful for the liberties we enjoy every day because of your service.

As your Commander-in-Chief I will always support you and your families so that this great nation continues to have the greatest armed forces in the history of the world.

Thank you,  
George W. Bush  
President of the United States

George W. Bush is sworn in as the 43rd president of the United States by Supreme Court Chief Justice William H. Rehnquist Jan. 20.

TECH. Sgt. Lou Briscese

30th Space Wing

## Commander's Action Line

As the wing commander, my primary focus is on the mission and I believe that our mission success will be based on how well we care for our people on and off the job.

The Action Line is your direct link to me. It provides an avenue for you to voice your concerns, share constructive ideas or give your fellow base members a pat on the back. The Action Line is not a replacement for using the chain of command.

When you e-mail or call please leave your name and contact number in case more information is needed.

I want Vandenberg to continue to be the best Air Force base in the world. Working together, it will be.

## Action line

### Reminder to motorists: Pedestrians have right of way at crosswalks

My concern is the street crossing in front of the Base Youth Center at Juniper Avenue. I'm an employee there and we walk groups of kids to and from the facility daily. Lately, we've been having problems with motorists who are failing to yield to us while we cross.

We're very concerned for the kids' safety. We've been to the law enforcement desk and turned in a few motorists on this, but we haven't really gotten anywhere with it. Could you please look into this to see what can be done?

Thanks for bringing this to my attention. Ensuring the safety of Team Vandenberg is of the utmost importance. Installation patrols have been briefed of this situation and asked to look out for motorists who fail to yield for pedestrians.

We've also asked the 30<sup>th</sup> Civil Engineer Squadron Traffic Engineer Flight to review the possibility of installing a crosswalk and pedestrian crossing signs at that location. To improve pedestrian visibility, we would also encourage all youth center employees to wear a highly-visible reflective vest and carry a crossing guard stop sign when escorting children across the street.

As a pedestrian, one should never assume that motorists will yield to you. Pedestrians should always conduct themselves as if traffic can't see them. Motorists are reminded that pedestrians always have the right of way, whether or not the road is marked by a crosswalk. Vandenberg motorists are urged to drive cautiously especially when pedestrians are near and may cross your path. If anyone witnesses a traffic violation you're encouraged to report the incident to the 30<sup>th</sup> Security Force Squadron Law Enforcement Desk at 606-3911.

# Your ideas can make a difference

By COL. SUZANNE VAUTRINOT  
14th Air Force Chief of Operations

**Y**ou may have noticed a battle brewing in Washington and in the Defense Department. It's a battle of ideas.

We hear that the most senior experts in this nation have completed studies on the structure of our operational organizations, the systems we employ, supportability, safety, security, the health and welfare of our members, and most recently, on the welfare of our nation and its military.

No doubt you've heard of, if not read, the National Academy of Science studies on launch safety; the Strategic Direction and Implementation Plan for Air Force Spacelift Ranges; the National Reconnaissance Office Commission; the Space Commission and perhaps others in your particular area of expertise.

If you haven't read them,--do! Not because they offer extraordinary insight or new ideas, but because they reflect, and now formalize, the ideas that you, your cubicle-mate, predecessor, shift partner or coworker created and nurtured for at least a decade. And whether scratched out on a

bar napkin after a frustrating week, formalized in a point paper or dropped in a suggestion box—those ideas took seed.

Your ideas (OK, sometimes complaints) were sowed with detailed understanding of the mission and insight to problems and their solutions.

Now, at the highest levels in our government and the greatest "think-tanks" in the nation, those same ideas are blossoming.

They have deep roots. And in most cases, those roots are tied to our young officers and enlisted, the

defense industries' junior engineers, civil service workers with years of experience ... to the people who do the job every day, and have been for decades. Your names aren't in the credits, but your ideas are rife throughout the texts.

***"Your nation is proud of you. Now, let's get to work implementing your ideas!"***

Col. Suzanne Vautrinot  
14th Air Force, chief of operations

We have come full circle; from frustration, to insight, to ideas...and now their "corporate" acceptance. Your nation is proud of you. Now, let's get to work implementing your ideas!

Welcome to our 21<sup>st</sup> Century Air Force ... "No One Comes Close."

STAFF SGT. JANICE CANNON

## STEPping up!

# Breakers dining hall opens for business

BY STAFF SGT. ANDREW LEONHARD  
30<sup>th</sup> Space Wing Public Affairs

■ After a nearly 19-month closure, 30<sup>th</sup> Space Wing Commander Col. Steve Lanning served supper to the troops Jan. 24, in the newly renovated Breakers Dining Facility.

Before the \$2.5 million renovation, the aging facility's design wasn't in line with other Air Force and commercial food service facilities, said Tech. Sgt. Steven Grim, 30<sup>th</sup> Services Squadron food service manager.

Grim said a management survey was conducted to identify how well the Breakers functioned from a hands-on perspective. The results were used to improve the overall standards of the facility. In addition, a customer survey was conducted to identify how the customers use the facility and how they perceive it.

Workers, who began construction on the facility in June 1999, converted the serving area from a traditional chow line to the more modern and acceptable scatter-court system that will facilitate ala carte and buffet service. The change also incorporates theme dining rooms.

"We created five theme dining rooms and three smaller dining areas," Grim said. People can watch sports on a big screen TV in the sports room which has the feel of a sports bar with an industrial looking ceiling, exposed ventilation piping and bracing and more than 50 banners hanging around the room. There is also a history

STAFF SGT. JANICE CANNON

*The renovated dining facility has five separate dining rooms, ala carte and buffet serving stations.*

room, a news room and two garden rooms.

"Getting the facility re-opened is a big morale booster in itself," Grim said. He emphasized that dorm residents wouldn't have to travel across the cantonment area to the Air Education and Training Command dining facility any more.

Customers aren't the only ones to notice the improvements of the 330-seat capacity facility. Workers will also notice many improvements.

Grim said the base purchased more than \$750,000 in new serving, kitchen and din-

ing equipment and supplies.

Betty Conley, a lead cook at the Breakers, explained how the new counters are interchangeable to serve hot or cold foods. The counters can also be moved around for easier serving, she said.

"Before the renovation, the facility was unpleasant to the eye outside," said the 5-year veteran cook. "Now it's welcoming with the newly landscaped entrance."

"I think the new look will give people a positive attitude and it should be a benefit to Vandenberg personnel," she added.

Some 700 customers visit the dining fa-

cility daily and judging from their responses, they like what they see.

"This is very impressive," said Airman 1<sup>st</sup> Class Duriel Howard, 30<sup>th</sup> Security Forces Squadron. "The service is faster which makes it easier to get in and out."

"The facility is nice. It looks very artistic, I guess the only complaint I would have is that you can't get carryout when out of uniform," said Senior Airman Gary Cochran, 30<sup>th</sup> Civil Engineer Squadron.

Currently, the Breaker's staff is working the issue of allowing people to carryout food when they're not in uniform.

The new dining and serving areas were just a couple of the improvements. The facility also got additional storage rooms, a manager's office, a new employee break-room, new air conditioning and heating ventilation systems, a new flight kitchen and increased lighting throughout the facility.

People eligible to eat at the Breaker dining facility are as follows: permanent party enlisted on basic allowance separations or meal card holders; temporary duty assigned officers, enlisted, and civilians; and military retirees.

Serving hours for the Breakers are:

**Weekdays:**

Breakfast 5 to 8 a.m.

Lunch 11 a.m. to 1:30 p.m.

Dinner 4:30 to 7 p.m.

Midnight chow 11 p.m. to 1 a.m.

**Weekends:**

Brunch 6 to 11 a.m.

Dinner 4 to 6 p.m.

## Deployed 30th SW vehicle ops does it all

BY MAJ. JOHN CHERRY  
Chief, 320<sup>th</sup> Air Expeditionary Group  
Public Affairs

■ Eskin Vehicle Operations has been blessed. Five members of the 30<sup>th</sup> Space Wing Vehicle Operations Flight are deployed to Eskin Village, Kingdom of Saudi Arabia, as part of the 320<sup>th</sup> Expeditionary Logistics Squadron.

Master Sgt. Shane Munn, Staff Sgts Lewis Dothager and Antonio Orozco, Senior Airman Joshua Gonzalez and Airman 1<sup>st</sup> Class Khamson Manisisaket have made their impression on Operation Southern Watch by providing top-notch transportation support, not only to the 320<sup>th</sup> Air Expeditionary Group, but also to the sister services and the other national services deployed to Eskin.

Vehicle ops performs typical transportation duties like maintaining the wash rack facilities, but the things few people notice are the ones they are most proud of.

"Very few realize it, but vehicle operators are the ones that take them to Eskin from Prince Sultan Air Base when they first get here and back to PSAB when it's time for them to leave," Dothager said.

"When people are sitting in the Mirage Dining Facility eating, they don't think about how the food got there," Orozco noted. Vehicle ops also tracks the movements of each and every person assigned to the group that departs Eskin.

With all they do, there's little doubt the Vandenberg Hawks deployed to Eskin Village live up to the 320<sup>th</sup> ELS motto, "We do it all."

MAJ. JOHN CHERRY

*Deployed Team Vandenberg members, Left to Right, Airman 1st Class Khamson Manisisaket, Staff Sgt. Antonio Orozco, Senior Airman Joshua Gonzalez, Master Sgt. Shane Munn and Staff Sgt. Lewis Dothager.*

**NEWS YOU****CAN USE****VANDENBERG COMPRESSED WORK SCHEDULE SURVEYS DUE TODAY**

The 30th Space Wing Commander has directed Team Vandenberg to be surveyed to determine the practicality of a basewide compressed work schedule.

Individual inputs are critical to determine the desirability and feasibility of the proposal. Vandenberg members can access and print the CWS survey on the 30th Space Wing intranet web page at <http://intranet>. Complete the attached survey and return it through the base distribution system to 30MSS/DPM Attn: Maj. Darnell Raynor or by fax at 606-3969. Surveys should be in by close of business today.

**AIRMAN LEADERSHIP SCHOOL CLASS 01-B GRADUATES TUESDAY**

Airman Leadership School Class 01-B graduates Tuesday. A banquet in honor of the graduates is scheduled for that evening at the Pacific Coast Club. A social hour begins at 6 p.m. followed by dinner at 7 p.m. The attire for the evening will be mess dress or semi-formal uniform.

**BASE EQUIPMENT CUSTODIANS MUST ATTEND MEETING WEDNESDAY**

There is a mandatory equipment custodian meeting Wednesday at 2 p.m. in building 12000 room 201. The meeting will cover changes in the equipment custodian program and will count as annual refresher training. For more information, call Greg Walton at 605-7785.

**AFSA TO HOLD GENERAL MEMBERSHIP MEETING FEB. 13**

Air Force Sergeants Association Chapter 1,356 has scheduled the next general membership meeting for Feb. 13 in the Pacific Coast Club at 3:30 p.m. For more information, call Staff Sgt. Lisa Antoni at 605-2633.

**AIR FORCE COMMUNITY COLLEGE TRANSCRIPTS DUE FEB. 15**

Students who want to participate in the Community College of the Air Force Summer 2001 graduation ceremony must have their transcripts to CCAF by Feb. 15. Students who have completed all course requirements and need transcripts submitted to CCAF should send their requests through the base distribution system to 30MSS/DPHE Attn: Michelle Schrage. Transcripts, along with a degree nomination letter from the counselor, must be at CCAF in Alabama by Feb. 23. For more information, call Debbie Johnson at 605-5902.

**HOUSING WALL ON CALIFORNIA BOULEVARD UNDER CONSTRUCTION**

The block wall along California Boulevard next to family housing will be replaced from the main entrance to Oregon Avenue. The project is sched-

uled to begin in early February and be completed in October. The work will be accomplished in three phases. A temporary fence will be installed at affected housing units. Questions regarding the project may be directed to Eddie Barnette, 30th Civil Engineer Squadron at 605-4658.

**SPECIAL OLYMPICS COMMITTEE LOOKING FOR VOLUNTEERS**

This year marks the 10th anniversary of Vandenberg AFB hosting the Santa Barbara County Special Olympics. This year's event will be held April 21. The committee is currently looking for volunteers to be team leads, escorts, and organizational points of contact. Call Capt. Stacy Huser at 606-1542 extension 3106 for more information.

**GROUP TO HOLD EXCEPTIONAL FAMILY MEMBER OPEN HOUSE**

The 30th Medical Group Family Advocacy section is holding an Exceptional Family Member Program open house March 6 from 6 to 8 p.m. in the 30th Medical Group Auditorium.

The program will offer general information concerning EFMP enrollment and other issues detailing service availability and a question and answer session. The group will have free childcare during the briefing. Call Calvin Long or Airman 1st Class Andrea Ulibarri at 606-5338 or 606-8217 for reservations.

**AFSPC AUTHORIZES TUITION ASSISTANCE TO CIVILIAN EMPLOYEES**

The education services and human resources offices have announced that beginning in March tuition assistance will soon be available for Air Force Space Command appropriated fund civilians. The command created the assistance program in response to a quality of life conference it held.

The civilian program will mirror the military program which covers 75 percent of tuition costs and has a cap of \$3,500 per year. First priority will be given to GS-10, and below, or equivalent wage grade employees. For more information, call Jim Billings at 605-5903.

**INTERNET SCAM TARGETS AMERICA ONLINE USERS**

The Air Force Office of Special Investigations has identified a new scam that targets America Online users. An e-mail message to a user's sub-screen name will advise him to click on a URL to provide a new credit card number. The bogus e-mail states that failure to provide the number will result in a \$35 late fee being assessed to the AOL user's account. Web pages and e-mails associated with the scam appear to be official AOL products. Agents advise this scam is another example of Air Force personnel being targeted by criminal elements. Report scam e-mails to Internet providers.

**Get current VAFB tour & launch info at 606-1857**

# Command activates first counterspace technology unit

■ PETERSON AIR FORCE BASE, Colo. — Concepts of futuristic offensive and defensive counterspace weapon systems will soon be taken out of the lab and put to the test because of the activation of the 76th Space Control Squadron here.

The new squadron became part of the 21st Space Wing Jan. 22.

The control squadron, Air Force Space Command's first counterspace technology unit, will explore future space control technologies by testing models and prototypes of counterspace systems for rapid achievement of space superiority.

"The freedom to operate in space is widely acknowledged as an American vital interest," said Brig. Gen. Gary R. Dylewski, Air Force Space Command's director of operations. "We must plan to both pro-

tect our access to space and deny access to those adversaries who want to use their own space systems against the United States and our allies. Investigating today's technologies better postures us for tomorrow."

The squadron will concentrate on working through the challenges associated with future operations, according to Brig. Gen. C. Robert Kehler, 21st Space Wing commander.

"Assessing the technological feasibility of an idea is only one piece of the puzzle," Kehler said. "You also have to consider how each concept might be deployed and employed in harsh combat environments. That's the job of the 76th Space Control Squadron — to think through operational issues with an eye on improving potential designs." (Courtesy of Air Force Space Command News Service)

COURTESY PHOTO

## X-35C testing nears completion at Edwards

EDWARDS AIR FORCE BASE, Calif.—Following two months of flight testing here, Lockheed Martin's X-35C Joint Strike Fighter concept demonstrator will be moving to Naval Air Station Patuxent River, Md., for flight testing at sea level. Testing at NAS Patuxent River will give evaluators a more accurate picture of the JSF's carrier-suitability performance.

# Schriever 2001 war game evaluates vulnerabilities

(Right) A Delta II rocket lifts off from Vandenberg carrying a satellite into polar orbit. The Schriever 2001 wargame illustrated how important protecting our satellites and denying our adversaries the ability to exploit space has become. Systems crucial to our ability to provide aerospace superiority include the F-22, Space-Based Infrared System, Airborne Laser, and Space-Based Laser.

FILE PHOTO

■ SCHRIEVER AIR FORCE BASE, Colo.—The Space Warfare Center concluded the first of what may become a series of Air Force-sponsored wargames here, Jan. 26.

The Schriever 2001 wargame, set in the 2017 timeframe, explored critical space issues in depth, and investigated the military utility of new space systems.

The war game objectives centered on exploring the requirements for space control, exploring ways to counter advanced adversary space capabilities, and evaluating the enemy's ability to deny U.S. and allied space capabilities.

Although details of the actual scenario are classified, the wargame pits a friendly "Blue" force against a near space-peer adversary known as the "Red" force.

"Red" has been threatening a smaller, neighboring "Brown" nation, and "Blue" intervenes on "Brown's" behalf.

"Schriever 2001 was an unqualified success due to the tremendous efforts of outstanding people," said Brig. Gen. Doug Richardson, SWC commander.

"Col. Ken Feldman, chief of my analysis and engineering branch, led wargame planning efforts. His job now is to analyze all the data we've obtained, and extract the 'golden nuggets' for future wargame planning. Fortunately, there's a lot of great information to work with," Richardson said.

"Several themes have already emerged from this year 2017 scenario," Richardson said. "To begin with, the game highlighted the vulnerability of space systems to attacks from 'Red' forces."

Similarly, our dependence on commercial space systems, and its multidimensional, global implications, played heavily in this game."

The Space Warfare Center Analysis and Engineering Division led organization efforts for Schriever 2001.

About 250 military and civilian space experts from around the country participated in the wargame.

Schriever 2001 was conducted Jan. 22 to Jan. 26. (Courtesy of Air Force Space Command News Service)
